

AS/EN 9100:2016 INTERNAL AUDIT TRAINING

25TH & 26TH NOVEMBER 2019

Objectives

To provide delegates with:

- basic understanding of auditing protocols and the audit process based on the AS9101 & ISO 19011 guidelines for auditing management systems
- the competency necessary to conduct a risk-based, process approach audit of an AS/EN9100:2016 ASD Quality Management System.
- practical knowledge and skills necessary to plan, conduct and report an internal audit

For Whom

Selected internal auditors for the company's AS/EN 9100:2016 ASD Quality Management System.

Topics Covered

- Introduction to ASD Quality Management System to understand the system requirements
- Introduction to Auditing to understand the audit process and terminology
- Audit Planning to understand how to establish audit plan and checklists
- Conducting Audit to understand how to audit the process, risk and performance of a quality management system and collect audit evidences relevant to the standard
- Audit Reporting to understand how to write up the audit findings
- Audit Follow-Up to ensure effective closure of the audit findings

To ensure the effective implementation, maintenance and continual improvement of Aviation, Space & Defense (ASD) Quality Management System, the company must effectively carry out internal audit. This course is designed to expose participants to the application of AS9101 & ISO 19011 international standard in conducting effective ASD quality management system audit based on the latest AS/EN 9100:2016 requirements.
